Er sylw/ For the attention of:
Cerys Jones

15th November 2016

Dear Mr Jones,

**SHARVIN FORMER SCHOOL ROOM , WREXHAM - P/2016/1031
CONVERSION OF REDUNDANT BUILDING INTO 2 BEDROOM DWELLING**

Thank you for consulting Natural Resources Wales regarding the above proposal, received on 8th November 2016.

Natural Resources Wales has no objection to the scheme.

Protected Species

We have identified the possibility that bats may be present. Therefore, we recommend that your Authority screens the application to see if there is a reasonable likelihood of bats being present and the need for a bat survey in accordance with Technical Advice Note 5: Nature Conservation and Planning (paragraph 6.2.2).

Bats and their breeding and resting places are protected under the Conservation of Habitats and Species Regulations 2010 (as amended). Any development that would contravene the protection afforded to bats under the Regulations would require a derogation licence from Natural Resources Wales. A licence may only be authorised if:

- i. There is no satisfactory alternative and
- ii. The action authorised will not be detrimental to the maintenance of the population of the species concerned at a favourable conservation status in its natural range. In addition,
- iii. the development works to be authorised must be for the purposes of preserving public health or safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment.

Paragraph 6.3.7 of Technical Advice Note 5: Nature Conservation and Planning (TAN5) states that your Authority should not grant planning permission without having satisfied itself that the proposed development either would not impact adversely on any bats on the site or that, in its opinion, all three conditions for the eventual grant of a licence are likely to be satisfied.

Please consult us again if the survey finds that bats are present at the site. In the meantime, we cannot confirm that the proposal would not harm or disturb bats, or a breeding site or

resting place used by bats. Nor can we confirm that the proposal would not be detrimental to the maintenance of a bat population's favourable Conservation status in its natural range.

Please do not hesitate to contact us if we can be of any further assistance to you or if you wish clarification on the above.

Our comments above only relate specifically to matters that are included on our checklist "Natural Resources Wales and Planning Consultations" (March 2015) which is published on our website: (<https://naturalresources.wales/planning-and-development/planning-and-development/?lang=en>). We have not considered potential effects on other matters and do not *rule out the potential for the proposed development to affect other interests, including environmental interests of local importance*. The applicant should be advised that, in addition to planning permission, it is their responsibility to ensure that they secure all other permits/consents relevant to their development.

Yours sincerely,

Joy Evans
