

TO WHOM IT MAY CONCERN

Please take this email as a firm reject of the request for planning of Planning Reference P2016 0533, Welsh Government H 6955/A/17/3167412 of the Erection of two broiler chicken rearing buildings and associated plant and area needs

My rejections to this planning consent are aligned to the following

1. The community is being continually eroded by these continued requests and consent and our surrounding are being less palatable for what was a very nice and peaceful and proud to be area in Wrexham for us all - shameful
2. Have we not got enough imposed impact to us here in Cross Lanes from the prison, and potential dpotential already further exapansion and the threat that posses to us all in the community, with undesiable roaming and visiting vagrants
3. These facility should be in the industrial area where teh facilities and surrouding are more condusive
- 4, If this is past is this saying we now can just build what we want when we want,
5. The Road, access and risk to the public and community will increase in Bedwell and surrounding area,
6. The facilities in Crosslanes are not apparopiate for this type of facility
7. Again the evironment suffers, from destruction, there are more suited areas and facility that are already vacant on teh industrial estate and surrounding Wrexham area
8. I dont this its appropriate with the other concent being close to what was the Cross Lanes Hotel and Potential of the Outdoor Pursuit, and potential risk that this would bring to teh Children in term of Health and Riak from Traffic etc
- 9, The risk to Health from this facility needs to be considered in airborne, and discharge into streams etc
10. The Value of our houses is continually being erroded by incompetence
- 11, When is WMBC goingto show some care in this part of Wrexham
- 12, TOP rated area for total disregard

I am happy to continue and discuss this further

Paul K Richards
