Category 3 Species (LBAP Species not identified under Categories 1 & 2, Locally Important species as specified by local experts) within 1000m - 0 records	
No Records Found	
Statutory Sites intersecting 1000m buffer	None
Wildlife Sites intersecting 1000m buffer	Wrexham W337: Wrexham Industrial Estate (0m), Wrexham W316: Cefn Park (641m)
NWWT Reserves intersecting 1000m buffer	None
RSPB Reserves intersecting 1000m buffer	None
RIGS intersecting 1000m buffer	None
Ancient Woodland intersecting 1000m buffer	37166: Restored Ancient Woodland Site (0m), 30640: Restored Ancient Woodland Site (0m), 33412: Ancient Semi Natural Woodland (481m), 28954: Ancient Semi Natural Woodland (642m), 30646: Ancient Semi Natural Woodland (801m), 37168: Restored Ancient Woodland Site (969m)
Habitats intersecting 1000m buffer (Habitat at central point shown in red, if found)	J.3.6: Buildings (39.33% / 1,781,733 sq.m), B.4: Improved Grassland (23.18% / 1,049,914 sq.m), J.1.3: Ephemeral/Short Perennial (8.76% / 396,639 sq.m), B.2.2: Semi-improved Neutral Grassland (7.28% / 329,882 sq.m), A.2.1: Dense Scrub (4.81% / 217,801 sq.m), J.1.2: Amenity Grassland (3.6% / 163,107 sq.m), A.1.1.1: Semi-natural Broad-leaved Woodland (2.81% / 127,140 sq.m), J.1.1: Arable (2.53% / 114,768 sq.m), NA: Not Accessed Land (0.93% / 42,004 sq.m), A.1.1.2: Planted Broad-leaved Woodland (0.34% / 15,294 sq.m), C.3.1: Tall Ruderal Herb (0.19% / 8,680 sq.m), G.1: Standing Water (0.16% / 7,125 sq.m), G.2: Running Water (0.1% / 4,745 sq.m), J.1.5: Gardens (0.1% / 4,694 sq.m), A.1.3.2: Planted Mixed Woodland (0.05% / 2,384 sq.m), J.4: Bare Ground (0.02% / 898 sq.m), F.1: Swamp (0.01% / 300 sq.m)

Important Issues

1. Usage of the above information is governed by Cofnod's **Terms and Conditions of Data Release**, which can be downloaded [here](#).
2. Records shown in **bold** typeface are sensitive species records, and **must not be released into the public domain**. A public version of this report is also available and this can be released into the public domain. In the public version the resolution of sensitive species grid references are reduced and site names and comments are removed.
3. Past records of presence of a habitat or species do not guarantee continued occurrence; absence of records does not imply absence of a species, merely that no records are held at Cofnod; Cofnod cannot guarantee the accuracy of supplied data; copyright of records remains with the original recorder.

Notes

Mobile Species: Cofnod uses a search system which reports species (usually high priority or protected species) within a specified search radius or buffer. Where required a search will also include high priority 'Mobile Species', such as bats, otters, amphibians and certain invertebrates, which lie outside the specified search radius. These species are highlighted on the report with **(Mobile)** next to the distance. They have been selected as 'Mobile Species' as their territory (possibly due to foraging activity or life cycle) could intersect with the search radius. The list of 'Mobile Species', invasive non-native species and species categories used in Cofnod's reporting system can be found at www.cofnod.org.uk/Enquiries under the 'Species Categories' tab.

1km Records: Records with 4 figure grid references are displayed as 1km squares on any relevant maps. They are highlighted with **(1km)** next to the distance.

Distances: Where searches specify a single or multiple grid reference, the distance from each record to the grid reference will be shown in the 'Distance (m)' column (except in public versions of reports as referred to above). Distances are highlighted in **red** where records fall within 50m of the grid reference. Distances are measured from the search location to the centre point of a record's grid square.

Grid References: Click on any grid references within the report to view them on an interactive map on Cofnod's website.

Sites: As well as designated and non-statutory Wildlife Sites, NWWT and RSPB reserves are shown. Where they are within 50m of the search location, they are highlighted in **red**. Where further information is available for a site, the name will appear as a link which you can click on to visit an external website. Wildlife Sites which remain unconfirmed by the relevant Local Authority are given 'Candidate' status and are displayed with the (c) suffix. The following reasons for candidate status apply: 1. Anglesey and Flintshire Wildlife Sites were identified by survey but have not been formally confirmed. 2. Conwy and Gwynedd Wildlife Sites were identified by survey and air photos and remain candidate until evaluated using selection criteria.

Habitats: Habitats shown are from the Habitat Survey of Wales (1979 to 1997) using the Phase 1 survey methodology. The habitat at the search location is shown in **red**. Habitats are ordered in descending size order, with the area and percentage cover of each habitat within the search radius shown in brackets.

Dataset ID: All species records within the reports include Dataset ID codes. Click on the link to find the relevant Metadata from the **Data We Hold** page on Cofnod's website (www.cofnod.org.uk/DataWeHold). The number below the Dataset ID is the individual record ID. Please quote this if you need more information on a specific record.

'V' Column: Record Verification Level. The following abbreviations apply: **1:** Unassessed, **2:** Unconfirmed, **3:** Considered Correct by Cofnod, **4:** Considered Correct by Expert. Dataset Categories and Record Verification Levels are explained in more detail within Cofnod's policy on Data Quality, available from our website.

✉ column: - Click on the red envelope icon next to a record to send us an email if you think there is a problem with a record, or if you would like more information about it.

Maps: This report should be used in conjunction with any relevant maps, where these are supplied. Where a Phase 1 Habitat map has been supplied, this illustrates habitats mapped by NRW as part of their Habitat Survey of Wales 1979 to 1997. A separate key is also supplied.

Raptor Data: Please note that while we hold Wales Raptor Study Group data for North East Wales we are only permitted to release it to a limited number of trusted partners. We can provide contact details if you would like to contact the Raptor Study Group directly to request species information.
