To whom it may concern,

Please find enclosed our representations to the above Section 78 appeal at: land west of and adjacent to The Bungalow, Old Black Park, Halton, Chirk, Wrexham.

After reviewing all documents attached to this planning application the most recent traffic survey caught our attention. This survey was completed at the time of year where Chirk Car Boot Sale was not operational at the weekends, it was not in the summer months where the lane is used as a cut through for vacation traffic off to the North Coast.

Secondly a concern we wish to bring to your attention is consideration to be made to excess surface water/ drainage which will without doubt congregate at the bottom of Forest Hills lane. This junction is known for problematic water/sewage issues yet to be identified.

We wish to request a repeat of the traffic survey within summer months to give a true and accurate reflection of the traffic volume, usage and speed throughout the lane.

Regards
Francis Evans
