What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☐ Written Statement of Evidence
- ☒ Interested Party/Person Correspondence

☐ Other

YOUR COMMENTS ON THE CASE

I fully support this application as this proposed scheme will provide much needed investment in the local rural community and consequently support the future sustainability of local welsh agriculture, which is the heritage of this area. My interest in this scheme is that I have family, both past and current, who live and seek a living in this rural community.

This scheme will clearly contribute to the local GDP by acting as a local economic multiplier developing the local welsh pound, including through both direct and indirect employment opportunities and the integration of local goods and services. Local supply through this scheme, both up and down the supply chain, will also have carbon reducing benefits.

We should fully commend and support the local people who have provided the initiative and investment for this scheme, which clearly provides social, economic and environmental benefits to the local community and their future generations, rather than these essential foods being brought in from other areas that provide negative local sustainability benefits.
