- ☐ Agent
- ☒ Interested Party / Person
- ☐ Land Owner
- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☐ Written Statement of Evidence
- ☒ Interested Party/Person Correspondence

☐ Other

YOUR COMMENTS ON THE CASE

I would like to show my support in relation to the Poultry Unit application put forward by Mr and Mrs Morris.

It is nice to see a venture being put forward that will help sustain the agricultural industry in this beautiful and soon to be independent kingdom.

When it comes down to it, what we don't need in this area is another supermarket or a cinema or a shopping centre etc. What we need is to start building our economy and help it to thrive and be as strong as it can be for the future.

There are two main points that make this application beneficial in my eyes:

1) Supporting the local economy/businesses

The proposed application will inevitably provide future work and support for other local businesses linked to the welsh agricultural industry too. It is becoming increasingly sad to see various businesses in our community/local area slowly shut their doors because the support isn't there.

2) Animal welfare

People are more aware of animal welfare these days, and most people, myself included, prefer to purchase free range eggs oppose to eggs produced from caged hens. Knowing that more free range eggs could be produced locally would be great. We should be supporting more free range poultry farms and hopefully become that one step closer to saying goodbye to 'battery hens'. Alot of people will happily complain about the way hens are treated in battery farms...here, we can actually help do something about it.

I have lived in Shropshire for 10 years now and the extraordinary landscape and views that run for miles throughout the Shropshire/Welsh borders are undeniably second to none. But they do run for miles and miles and I personally can't imagine how one poultry farm, that is planned to be situated in the hills, is going to make any difference to this vast amount of landscape/scenery available to both locals and tourists.

In my opinion, the pro's and benefits of this application being successful will far outweigh the cons.
