Subject: Proposed caravan park on Fennant Road Ponciau Wrexham

As the owner of a property on Fennant Road I feel I must object to the proposed caravan park on the grounds of health and safety.

The road is quite narrow and the entry into the proposed site could cause serious problems to an already very busy road.

There are already concerns about the traffic along parts of this road, especially buses/large vehicles that frequent the area and leave little room for cars coming in the opposite direction.

There is no footpath for pedestrians and extra traffic could cause accidents to walkers.

I hope that you will take into account the varying problems that this development could bring to this thriving community and its residents.
