

I'am emailing you regarding Fennant Road Ponciau Wrexham.

I have lived on Fennant road for the last 29 years and only seen things only seen this road get worse.

It's a health and safety hazard and is a race track.

There are no pavements the road is very narrow and twisty.

The road is signposted to be a 20mph road but that's a joke because the average speed of the the drivers using this road are doing 50mph plus.

The road is never policed and safety is ignored here.

I have been clipped by cars on over 9 occasions which drivers have just drove off and left the Scene.

I have also been woke up been the sound of cars racing at three in the morning.

I have also been pinned again the wall by cars traveling that fast down the road they can slow down.

Crossing the road is only getting worse, I'm waiting for the day that either myself or someone I know will be knocked over and killed on this road its that bad.

Drivers will even see people crossing the road and go even faster instead of using common sense and slowing down which is madness especially as some residents I know have mobility issues.

There have been many accidents on this road which have gone unreported to the police.

It was only the other week there was a car in the hedge just by where the proposed land is for the travellers site which again went un reported.

Every other road in north wales seems to have a camera of some sort,here we have just been forgotten about.

I do not want a travellers site on my door step and to have to live in fear.

I'am a young women who wants to see improvements in the safety for this road for myself and other residents before somebody is killed never mind have a travellers site here.

The proposed travellers site should't be in the middle of a residential area, the access to the site for one is on a bend which is very dangerous, the field is water logged even livestock have had to be moved in the past due to this, there are great crested newts here too.

We Also have a lot of visitors to the area and also offers dyke which is ground where the proposed travellers site is, I don't think they want to come around the corner and see a travellers site.

I know elderly residents who will not even step out because they are so frightened of the speeding motorist and have also told me that they don't want the travellers site on their doorstep and are very frightened of the future living in fear.

Even the local post man got knocked over early this year and end up in hospital and had to have time off work to recover.

The road is also the main road to three schools in the area so it's always busy and also a main bus route.

School children walking to and from school have also complained to me on many occasions on how fast the cars go here.

The travers site should not go ahead on Fennant road for all the above reasons and more. Every single resident I have spoke to is very upset to hear that this has been been considered.

There are many reason why Wrexham council have refused this already, it's a no go zone.

Regards,

Lauren.
