YOUR COMMENTS ON THE CASE

I write in support of the application, for a free range egg unit. Welsh agriculture is under economic pressure, in the dairy beef and sheep sectors. There is also uncertainty following Brexit. The Common Agricultural Policy reform has also resulted in considerably less farm income. The combined impact of these factors towards the Wynnstay business and that of the family farms is likely to be catastrophic. As a result of the downturn, the Welsh government have strongly advised farms to diversify into sustainable enterprises, such as free range egg production.

Wynnstay produce poultry feed at the nearby Llansantffraid mill, poultry units secure, and provide extra local employment for mill production staff, delivery lorry drivers and for administration staff.

In consideration of all these points, I strongly request that a positive decision is made, in support of this application, to ensure that Wales has a strong and sustainable agricultural industry for the future.
