Martin/Matthew

I have looked at the current provision of Play equipment at the John Jones/Rhosddu Road Play Area.

New items which can be installed include:- (price includes supply, delivery, installation and safety surface under each piece of equipment)

Toddler Multi Unit - £13,000
Nest Swing - £4,000
Spinning Dish - £4,000
See Saw - £3,000.

However the current area will need to be extended to accommodate the new equipment.

Hope this is of assistance.

Kind regards Carla

Martin,

There are 24 dwellings and if they had provided open space on site that we were adopting then we'd ask for £1000 per dwelling, so as a minimum I think we could justify £24,000 in total given that no on-site open space is provided. I think upgrading the Rhosddu Road site is fairly justified given that it isn't too far from the site.

Regards

Matthew

How much money would be generated for improving a play area ? We could then suggest approximate costs for improving the play area equipment on Rhosddu rd, down the road which is desperately in need of improving.

Martin,

Sorry to chase on this one, but I was wondering if you'd had chance to consider what contributions that could be secured from this development?

Martin,

I have a planning application for 24 dwellings on the above site. The development does not provide any on-site open space and in this particular case I am minded to request an off-site POS contribution in lieu of on-site provision. To that end, are there any open space areas in the vicinity of the site that could benefit from some investment and if so could you provide details of what that might entail and the relevant costs?

Regards

Matthew Phillips
