Public Protection response

From: Nick Minshall

Subject: RE: P/2015/0656

Hello Matthew

The response from Public Protection remains the same, i.e. that the impact of noise from fixed plant, deliveries and customers can be adequately controlled with appropriate planning conditions during daytime hours.

PP is of the view that noise disturbance to nearby residents resulting from anti-social behaviour associated with the use of the proposed drive-thro (car engines, car hifi, customer noise, etc.) is likely if the hours of operation go beyond 23.00 hours.

Regards Nick

Nick,

We have received some amended plans for the proposed drive through at Island Green and a new noise report has been submitted to accompany them (see attached). The revised position of the drive through building is shown in a plan included in the report.

I suspect I already know the answer, but would this change any of the advice you have given so far, particularly with regards to hours restrictions?

Regards

Matthew
