To be Fakro Conservation rooflights

ELEVATION

NOTE: Frames to have blue / grey painted finish - RAL colour 7016. Spacer bars to double glazing to be black. Handles to windows to be black monkey tail. Frames to be ventilated so no visible external trickle vents.

NOTE:
Where opening lights to first floor windows are within 800mm of the floor they are to be fitted with window restrictors to limit the opening to 100mm. Where the window is also required for fire escape the restrictor is to have a release button.
