Wall Quoins

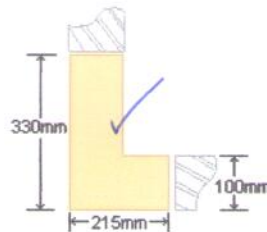

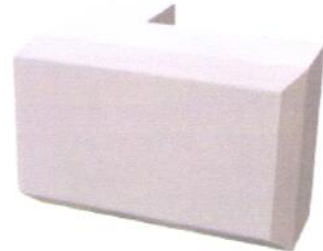

Wall Quoins

Q4152, Q3142, Q3128 & Q3115

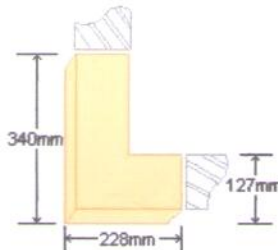

All Ashlar blocks and wall quoins are faced only on one side. Stick-on quoins come in two pieces and need to be pointed in after gluing. When bedding quoins allow 6mm joint between horizontal & 5mm vertical.

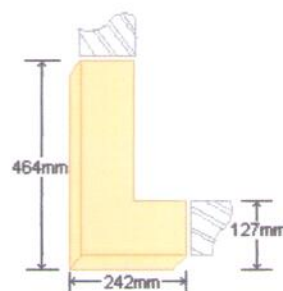

Custom-made wall quoins are available on request including reticulated and vermiculated. Adhesive and silicon sealant are available.

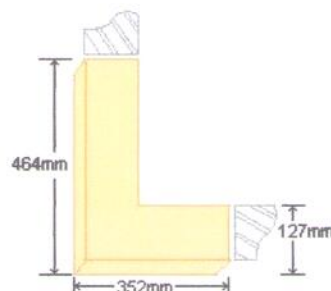

Q3115 Wall quoin has a height of 219mm, designed to sit flush with the brickwork and no chamfer. Suitable to be used with ashlar blocks and plain banding.

Q3128 Wall quoin has a height of 219mm and is chamfered, has the displacement of 1 x 1½ brick. Suitable for the smaller property.

Q3142 Wall quoin has a height of 219mm and is chamfered, has the displacement of 2 x 1 brick. Suitable for the wider property.

Q4152 Wall quoin has a height of 294mm and is chamfered has the displacement of 2 x 1½ brick. Suitable for the larger property or commercial premises.
