

FIRST FLOOR

GROUND FLOOR

NOTES

Extensive restoration and improvements were implemented in 2009 following the successful Planning and LBC Approvals P/2009/0127 + P/2009/0128. The works were carried out to a very high standard and received a commendation in the HHA/Sothebys Conservation Awards 2010. This successful scheme did not extend to the SF rooms which remain in a poor state of repair and due to a lack of alternative means of escape are uninhabitable at present.

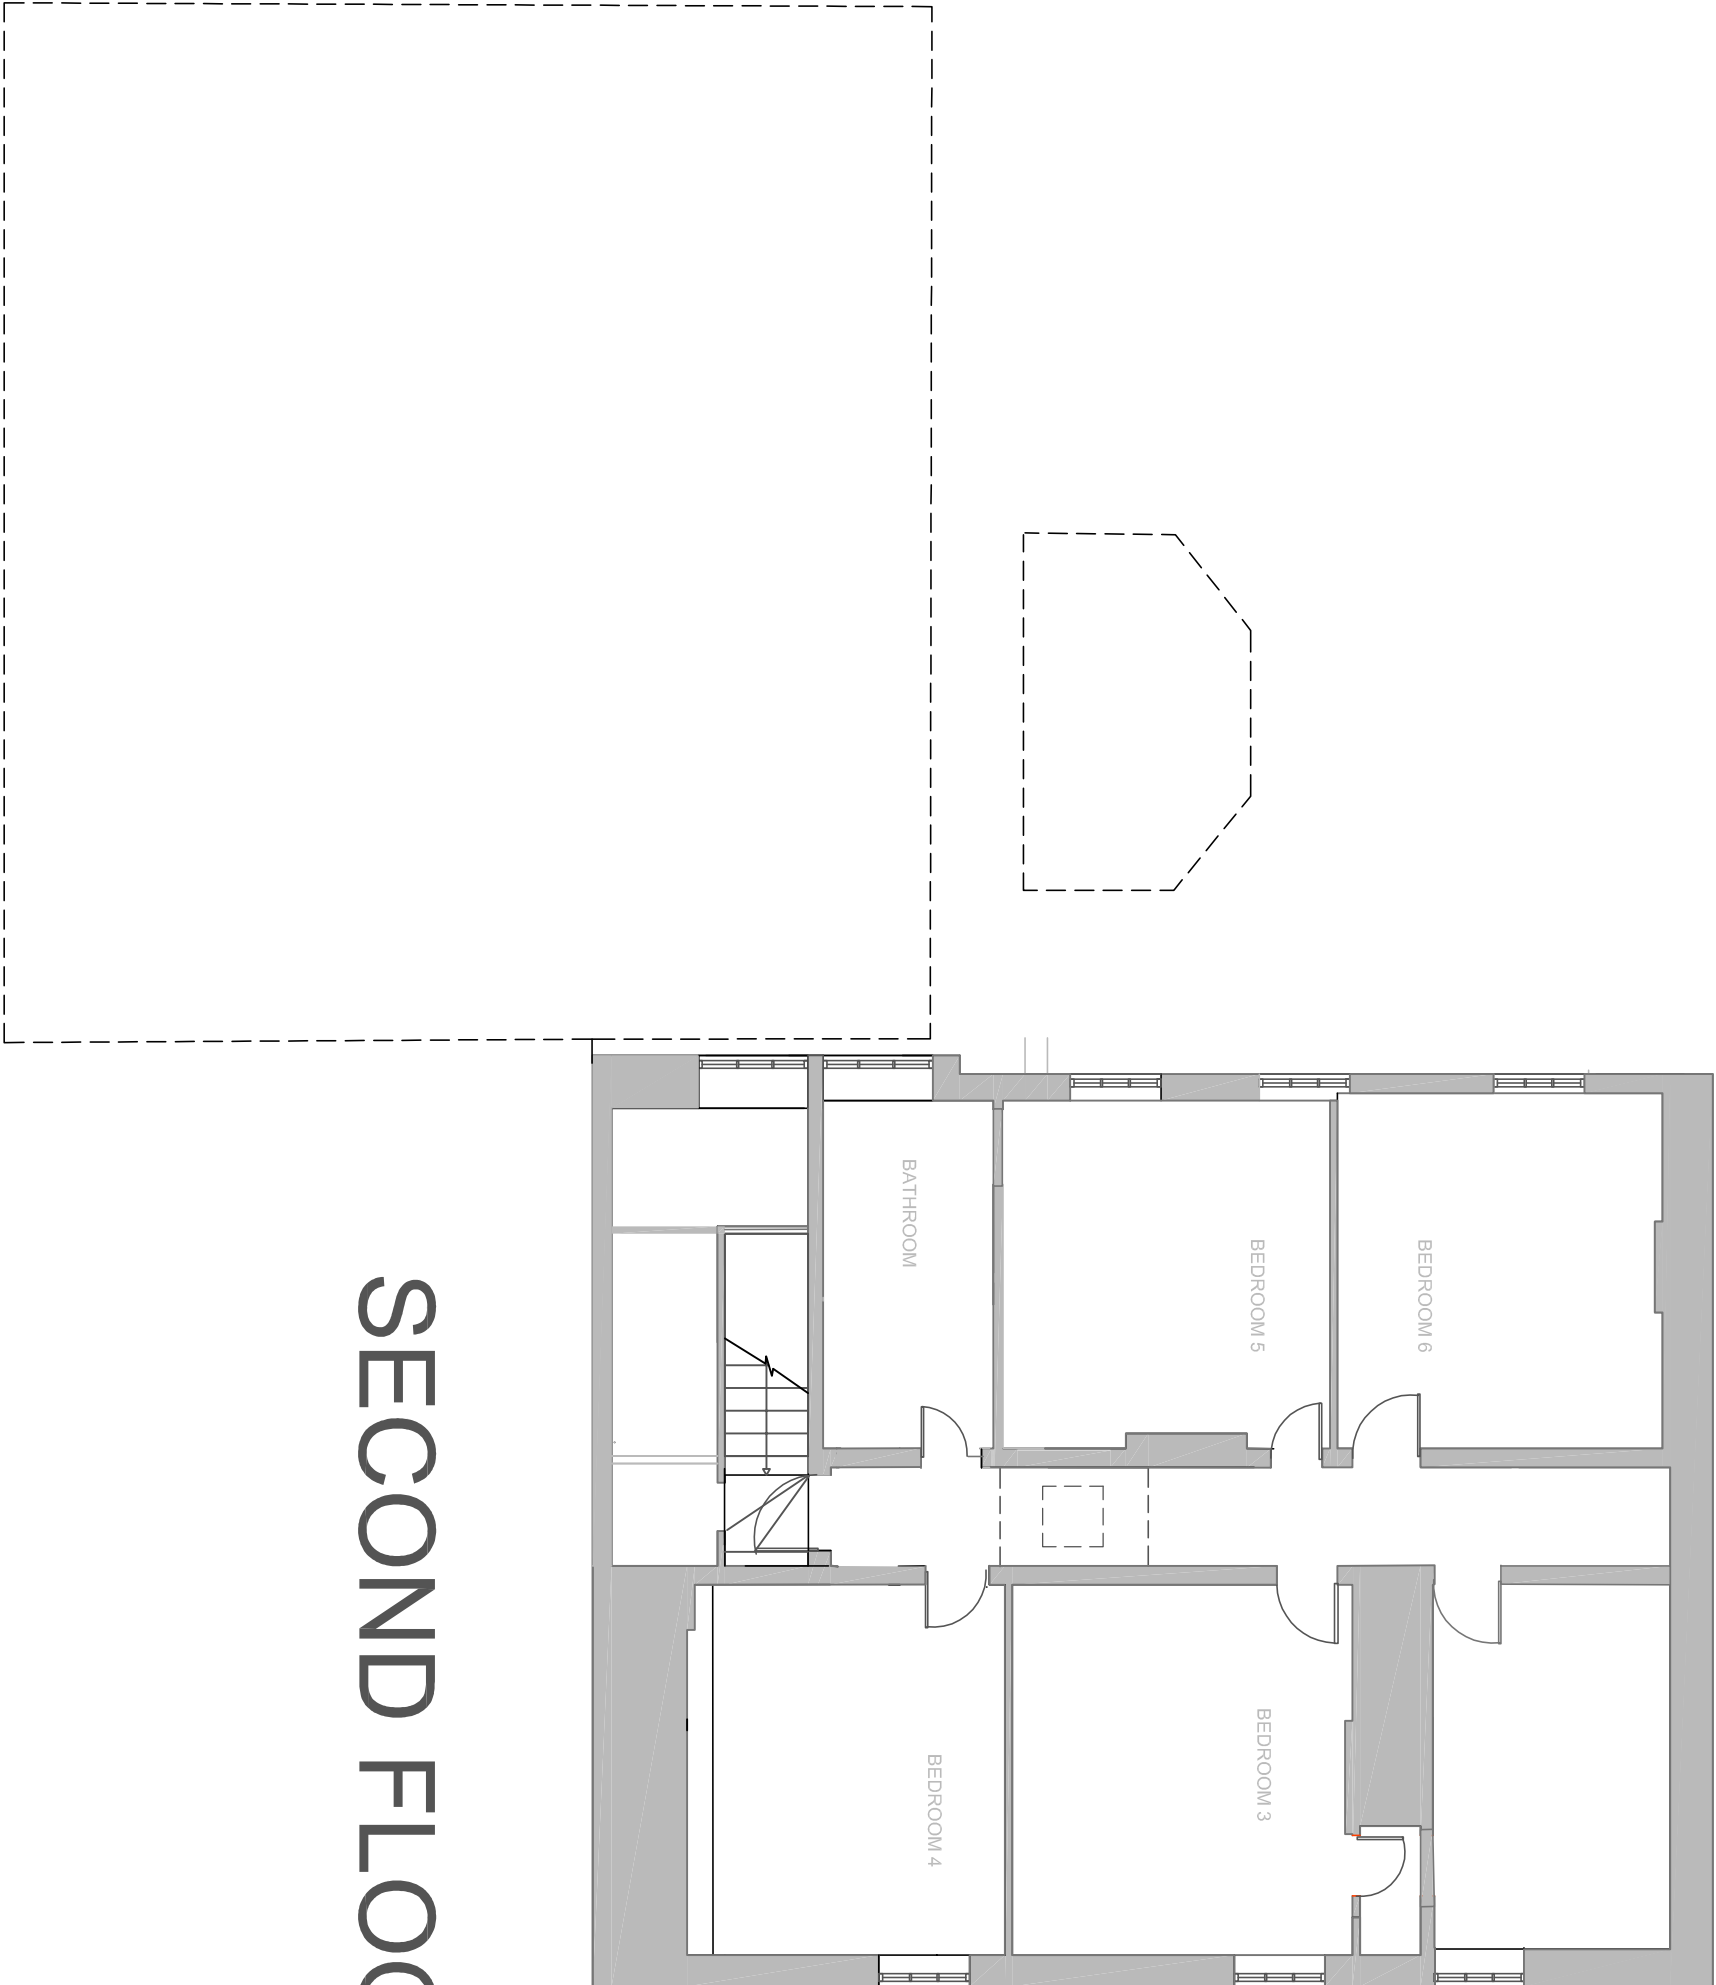

Please note that this scheme does not affect any of the principal rooms and all alteration is restricted to minor rooms at SF and FF level.

The three principal bedrooms of the main house have had a change of use for public access. All these remain unaffected by the present application.

For interest of clarity only the sections of the building relating to this application are shown.

The building is listed Grade II* (see site listings drawing).
