Subject: RE: Argoed Hall

Hello Les,

Now in the office and have looked at the plans and elevations. They look sympathetic in style and scale to me. I can't really comment on the finish but stonework of the same type, colour etc to the house, certainly on the sides visible from the drive, would be the most sympathetic to the situation. Also, detailing around the lodge - access, parking and so on - are important in this context.

I attach the register entry that I promised.

best wishes,

Liz

Subject: Argoed Hall

Dear Elisabeth,

Further to our recent conversation please find attached sketch of proposed lodge. We have attempted to copy a section of the front section of the Hall itself. The size is for a 2 bed house(plan attached). As discussed the main concern is the type of finish viz: stone work. To construct the whole building in
