YOUR COMMENTS ON THE CASE

Please provide your representation below.

I am strongly objecting to the application for an Egg barn at Talwrn Farm Legacy for a number of reasons. The access road to the farm is unsuitable for HGVs, the lorries would be negotiating a narrow road where there are no footpaths. Approaching from Rhos the road has many bends, many people walk the route and I myself have had to jump onto the verge bank on the approach of cars, lorries make the road very dangerous. The lorries would be unable to go along B5426 and would have to use the B5097 and if two lorries pass on that road one will access the verge. Also on the approach to the farm a small bridge has to be negotiated. Although it is stated odour would be minimal the removal of the waste from the site would be very offensive to the people living directly near the site but it is also possible for the odour to carry further afield due to weather conditions. Who would want to keep their windows shut on a lovely sunny day or be unable to sit in the garden due to the smell of an egg barn. Due to the number of chickens housed in the barn disease is also possible. We already have the problem of the fenced off polluted pool in Llwyneinion please don't add to our problems.
