YOUR COMMENTS ON THE CASE

Please provide your representation below.

The people of Wale do not want fracking, UCG or coal bed methane extraction, it should not be allowed to take place anywhere in the UK as we are a small over populated island.
MY concerns are where the millions of gallons of water are going to come from and also where will all that contaminated water be dumped.
I am very concerned about the damage that will be done to the environment, wildlife and human health as all will be affected by air, soil and water contamination.
No matter how much regulation for safety is in place nothing accounts to machine or human error, this does happen as I have read the reports from the USA about mistakes, spills and accidents that leave a devastating effect.
We do not want it so please say no tot he appeal.
