Sharon,

Many thanks for taking the time to run through the above application with me last week and confirming that you are looking to approve the application within the next three weeks.

As discussed, there was a minor error in the location of the double-width service doors on Drawing Reference WR002 – 'Unit C – Proposed Elevations' submitted with the application. Therefore, please find attached a copy of Drawing Reference WR002 Revision A– 'Unit C – Proposed Elevations' which supersedes the earlier drawing and is to be considered as part of the application.

If you have any questions, please contact Lewis Wright or me.

Kind regards

Matt

Sharon,

Further to our conversation last week, the amended drawing for the above will be submitted tomorrow.

Kind regards

Matt
