YOUR COMMENTS ON THE CASE

Please provide your representation below.

Dear Sir/Madam, I urge you to reject Dart Energy's application for exploratory drilling for coal bed methane (CBM). If Dart Energy are permitted to drill on this site it would have a disastrous environmental impact on the surrounding area, pollution of air and water systems would have a detrimental effect on the health and well being of people living near the site, as well as affecting local wildlife. The negative impacts of coal bed methane extraction in other countries such as USA and Australia are well documented and should serve as a warning against allowing such practices in this country.

I trust you will consider my concerns.

Yours Sincerely

DJA Cross
