YOUR COMMENTS ON THE CASE

Please provide your representation below.

I strongly oppose exploratory drilling on this site, and urge the Welsh Government to support Wrexham Council, and uphold their decision to NOT allow drilling on this site.

Experiences in other countries have shown that this process is not 100% safe, and I do not believe it is in Wales's interests to pursue this activity, which will not bring down energy bills, and has a limited lifespan. In my opinion this drilling will not benefit the local community, or Wales as a whole, especially at a time when Wales is leading the way in renewable technologies

The people of Wales are sadly all too aware of the consequences of underground drilling, be it for coal or in this case gas. We are only just recovering from the damage of the industrial revolution, and I feel that by allowing such activities to go ahead, the Welsh Government would be condemning Welsh people to generations of further ill-health due to the toxic nature of these processes.

YOUR COMMENTS ON THE CASE (Continued)

I implore you to put Wales first and to be a flagship for clean, RENEWABLE energy, not dirty fossil fuels or any description.
