Subject: Glyn Ceiriog Highways Depot - Specification for supplemental chemical investigation - Planning reference P/2012/0055
Attachments: TP Location Plan.pdf; Draft SI Specification.pdf
Importance: Low

Dear Jackie,

I write following our telephone discussion in October of last year regarding the Council's requirement for further chemical investigation at the above site.

Since writing to you, my previous employer, Wilbourn Associates, is in the process of going into liquidation and I will now be undertaking the investigation with AC Environment Solutions Limited (<http://www.acenvironment.co.uk/>) based in Rotherham.

On this basis I have completed a draft specification for the additional investigation (see attached) to which we would like your agreement and / or comments before proceeding.

Kind regards

Nick
