(Neighbour, Councillor, Owner, Tenant)

NEIGHBOUR.

What kind of representation are you making?

OPPOSING THE APPLICATION.

RECEIVED

YOUR COMMENTS ON THE CASE

Please provide your representation below.

The Ceiriog Valley is situated adjacent to the Dee Valley which is an area of outstanding natural beauty. The Ceiriog Valley itself, although not yet classified, is an area of outstanding natural beauty in its own right. Erection of any structures, like those proposed in the application, would be detrimental to the Valley as a whole and would spoil the excellent views that are afforded in the area of Spring Hill Farm.

Walking in the Ceiriog Valley is currently attracting more and more visitors to the area and thereby helping the local economy and promoting tourism. Visitors enjoy the unspoiled countryside that we have to offer and the introduction of wind turbines would deter potential tourists from visiting the area.

I am a very keen walker and walk frequently in the area of Spring Hill Farm. I also lead groups of walkers on walks in the Ceiriog Valley and some of the routes I use pass through and around the area in question. Seeing 5 wind turbines 22 metres (72 feet) high dotted around the place and creating an unpleasant noise would certainly spoil the pleasure of the day.

Our Valley has remained unspoiled for generations and it would be most distressing to see an invasion of wind turbines. If one application is approved it would open the floodgates for further applications which would destroy the beauty of our Valley forever.
