Dear Sir / madam

I own Two pony paddocks off the Brymbo Link Rd Southsea Wrexham which are split down the middle by a public footpath. I wish to put a stable (on the bottom paddock) which will be big enough for two ponys, who will need shelter in the winter also one of them we hope will be having a foal in the spring + will need to be kept inside for a short while I have tried to put the stable in a place in my field where it will not be seen of the road. Because of the large hedge + will make it out off wood which will blend in with the field so it will be hardly noticeable.
