Hi Simon

I asked Legal Services as to whether any other rights already granted across the car park would be compromised by the proposal.

I had hoped for a reply before coming back to you but as I haven't heard all I can say is that the proposed new vehicular access to the car park is not authorised and the Council as landowner has not been approached.

Further to the message from Joanne Rodgers, I enclose details from the current planning application.

I should be grateful for your comments regarding the access issue. If the vehicular access from the car park is not authorised then planning permission cannot be granted.

thanks
