Andy

See attached plan indicating the dimensions of turning head required to accommodate a small delivery van.

I assume Church View is 3 or 4 bedroomed - Please confirm. If this is the case, then 3 parking spaces would be required (I'm not counting the garage) - only 2 spaces provided on submitted plan.

Could you please anotate on a revised plan the actual lateral & pedestrian visibility splays you will be providing from the improved shared access. Lateral splays can be shown at 2.0m setback and 2.4m setback.

Thanks, Phil

Phil:

Following our telephone conversation please find attached in AutoCad the site plan as requested. (I've taken the colour off for clarity)

We look forward to receiving further information on the size of turning head required to comply with Highways.

If you have any further queries or require any further information then please do not hesitate to contact me.

Kind Regards

Andy Hewitt
