EXAMPLES OF ‘CONSERVATION ROOFLIGHTS’ FROM VARIOUS COMPANIES

WITH COMMENTS ON SUITABILITY FOR USE ON THE HAYLOFT ROOF AT ERDDIG

Conservation Rooflights from Fakro

The projecting profile and wide outer frame means these would not be considered for use at Erddig

Conservation Rooflights from Clement

Although not so wide, the outer frames still aren’t as narrow as a traditional rooflights.

A few other manufacturers make similar ‘conservation rooflights’, but it is felt the proportion looks too modern for use at Erddig.

Conservation Rooflights from Velux

This relatively new design from Velux, achieves the flush profile and narrow outer frame of a traditional rooflight.

This is one of two rooflight suppliers being considered/proposed for Erddig

Conservation Rooflights from Rooflight Co

These are the original ‘conservation rooflights’, first introduced in the early 1990s, which have the flush profile and narrow outer frame of a traditional rooflight.

This is the other rooflight supplier being considered/proposed for Erddig
