Dear Charlotte

Thank you for your email.

Proposals are as follows:-

- \* Overall drum diameter 1,000mm
- \* Drum width - 350mm
- \* Drum material - Powder coated Aluminium
- \* Dial diameter - 750mm
- \* Dial material 5mm thick opal acrylic background with 3mm thick black acrylic roman numerals
- \* Decorative hanging bracket in powder coated mild steel
- \* Gittins McDonald name in applied vinyl around front face of drum

As briefly discussed, Alan our designer is unfortunately away this week. I will ask him to do a design of the clock and bracket and would hope to have this with you by the middle of next week.

I hope this will be of help.

Regards

Les Kirk

Les

Thank you for your email. Anna and I would agree that a slimmer profile cylindrical clock would appear less bulky than the ogee, providing that the hanging bracket was more decorative as shown on the attached photo (Close up right.jpg).

For the purposes of the application I do need to know approximate dimensions of the clock and bracket and what design dial and colour the clock face would have because Cadw will inevitably want these details and will not wish to condition them.

Your earliest response to this matter would be appreciated.

Thanks
