Dyddiad/Date: 06 November 2023

Annwyl Syr/Madam/Dear Sir/Madam,

BWRIAD/PROPOSAL: RHYDDHAU AMOD 4 (DRAENIO), 06 (DATGANIAD ODDULLIAU COEDYDDIAETH), 15 (TIRLUNIO), 17 (CYNLLUN RHEOLI MAES PARCIO), 19 (CYNLLUN RHEOLI TRAFFIG ADEILADU) CANIATAD CYNLLUNIO P/2018/0668 / DISCHARGE OF CONDITIONS 04 (DRAINAGE), 06 (ARBORICULTURAL METHOD STATEMENT), 15 (LANDSCAPING), 17 (CAR PARK MANAGEMENT PLAN), 19 (CONSTRUCTION MANAGEMENT TRAFFIC PLAN) OF PLANNING PERMISSION P/2018/0668

LLEOLIAD/LOCATION: 49 - 51 College Of Art, Regent Street, Wrexham, LL11 1PF

Thank you for consulting Cyfoeth Naturiol Cymru (CNC)/Natural Resources Wales (NRW) about the above, which we received on 18 October 2023.

We have concerns with the application as submitted. We do not recommend your Authority discharges condition 4 for the following reasons. We have no comment on condition 6 and 15. Conditions 17 and 19 are not within our remit.

Protected Sites – Foul Drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. In line with our Planning Advice (August 2023), under the Habitats Regulations, Planning Authorities must consider the phosphorus impact of proposed developments on water quality within SAC river catchments. We therefore advise you to consider whether the proposals, as submitted, would increase the volume of foul discharge from the site in planning terms.

This application for the erection of a dwelling proposes connection of foul water to the mains sewer. However, no recent information has been provided to confirm whether DCWW can accept the foul flows from the proposed development. We refer you to our Planning Advice

and the information set out in the section titled 'What does this mean for development proposals involving connection to public wastewater treatment works'.

Your Authority will need to take the above into account in your determination of whether the development is likely to have a significant effect on the SAC. Should you determine that an Appropriate Assessment is required, the Applicant will then need to submit whatever evidence they deem appropriate (seeking advice from consultants as may be necessary) to demonstrate no adverse effect on site integrity. You should then consult us on your Appropriate Assessment under Regulation 63 of the Conservation of Habitats and Species Regulations 2017 (as amended). Ultimately, the suitability of foul drainage arrangements for the proposed development is a matter for your Authority to determine.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully

Sara Thomas

Cynghorydd - Cynllunio Datblygu/Advisor - Development Planning
