

My WMBC Ref: P/2020/0363

WMBC Ref 27/05/2021

I am writing in support of the planning application. The support for this application is for the following reasons:-

It is an innovative project which will bring exciting new technologies to Wales.

It assists in benefitting the long-term food security of the UK.

It assists in the Green Initiatives of the Wales Government

Brings new employment opportunities to Wrexham and Wales as a whole

Provides new income to Wrexham

My House faces in the direction of the proposed development

My Concerns would be noise & light pollution. Providing these are controlled adequately and meet

all standards I would be happy to lend my voice to this development.

Yours Faithfully

Clive George
