Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation

Old Cymru Cynrydding (the Company) gives this information in the position of its underground apparatus by way of general guidance only and it gives this understanding that it is based on the best information available and no warranty as to correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The onus of locating apparatus before carrying out any excavations rests entirely on you. The information is given for your guidance only, it is disclaimed, it is not intended to be relied upon. The Water Industry Act 1991 which is based upon the best information available is, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the public under the provisions of the Freedom of Information Act 2000, and the records of the company's underground apparatus laid before 1 September 1989, or, if you do, the particulars thereof including their position underground may not be accurate. It must be understood that the furnishing of this information is entirely without prejudice to the provision of the New Roads and Street Works Act 1991 and the company's right to be consulted in relation to any proposed works.

Service pipes are not generally shown but their presence should be anticipated.
