Subject: RE: Response

Thank you Sue, can I assume that as things stand the Practice would be against the development?

Finally, have the developers offered anything to alleviate the problem in any way?

Regards

Hi Mark

Following our telephone conversation, I have spoken with our Senior Partner Dr. Happs.

The Practice has concerns, should planning permission be granted for 350 new houses in Llay.

Potentially this could result in a significant increase to our patient list and add considerable pressure on the availability of appointments to our patients, the present building does not allow the Practice to expand in any way.

Kind Regards

Alyn Family Doctors

Thank you for your quick response to my query Sue - I will print off and read out your e mails to the Community Council at their next meeting. This will allow them to move forward with their deliberations.

Hi Mark

As things stand we wouldn't welcome the development!

The developers have not offered any solution to our problem.

Kind Regards
