Sharon,

In order as asked:

1. The proposed development is not part of any expansion plan. It will increase available storage for straw and machinery which is currently having to be stored outside or in restricted space.
2. This will cease to be in any way connect to either the production or storage of silage. A new clamp and associated effluent tank was installed 12 months ago.
3. See attached plan. Highlighted in yellow is an original clamp and the new clamp.

I hope this is helpful. Please come back to me if you need further information.

Many thanks,
James

Dear Mr Haselwood,

Please provide clarification on the following matters?

1. Confirmation whether or not there will be an increase in stock numbers as a result of this development;
2. Confirmation that the shed will not be used to make and store silage;
3. Confirmation of locations of all remaining silage clamps/store.

Many thanks
Sharon
