

P/2021/0149 CAS-141506-X9Y9 Wrexham DO - Ground Remediations Strategy
NRW:07740756

Dear Simon

Thank you for consulting us with the further information regarding this application for discharge of condition.

The proposed remediation and verification within Remedx, Remediation Strategy 170995 R01 (02) is considered acceptable, the submitted information can be considered acceptable to address pre-construction concerns of Condition 5. For the avoidance of doubt, we consider the information provided to have the binding requirements for remediation unless otherwise agreed/updated, and Condition 6 will remain outstanding until the verification report demonstrating the remediation has been carried out sufficiently has been submitted and approved.

The submitted information is considered sufficient to satisfy Condition 5 of P/2020/0598 in respect to controlled waters.

Please contact me if you have any questions

Kind regards
Rhys Jones
