Dear Sir/Madam

Grid Ref: SJ375417 337532 341773
Site: Cemetery, Church Road, Overton, Wrexham
Development: Change of use of land to form extension to existing cemetery

We refer to your planning consultation relating to the above site, as the proposal does not intend to connect to the main sewer, we have no further comments in respect to foul drainage.

In terms of surface water, we note that surface water will be drained to the existing watercourse. Please be advised that under no circumstances would we allow surface water or highway run-off from any net increase development to communicate directly or indirectly with the public combined sewer.

We would request that if you are minded to grant Planning Consent for the above development that the **Conditions** provided below are included within the consent to ensure no detriment to existing residents or the environment and to Dwr Cymru Welsh Water's assets.

Condition

Condition 1 – Surface Water

No surface water from any increase in the roof area of the building /or impermeable surfaces within its curtilage shall be allowed to drain directly or indirectly to the public sewerage system.

Reason: To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment.
