Date: 12/12/2025
Our Ref: PLA0091701
Your Ref: P/2025/0638

Dear Sir/Madam,

Grid Ref: SJ390491 339063 349160
Site: R AND R ENGINEERING WORKSHOP, OAK ROAD, WREXHAM INDUSTRIAL ESTATE, WREXHAM
Development: ERECTION OF REPLACEMENT INDUSTRIAL BUILDING

We refer to your planning consultation relating to the above site, and we can provide the following comments in respect to the proposed development.

Sewage Network

Firstly, with respect to the submitted application form, we acknowledge that the development does not propose to connect to the main sewer to dispose foul. We therefore have no comments to make in respect to public sewer connection. We would advise that the applicant seek advice from the Natural Resources Wales and/or the Building Regulations Authority as the regulatory body for this method of drainage.

Surface Water

We note that the proposal will use sustainable drainage systems to dispose of surface water, which is welcomed. We would advise that as of 7th January 2019, this proposed development may be subject to Schedule 3 of the Flood and Water Management Act 2010. The development therefore requires approval of Sustainable Drainage Systems (SuDS) features, in accordance with the 'Statutory standards for sustainable drainage systems – designing, constructing, operating and maintaining surface water drainage systems'. In this instance, we offer no objection to proposals for disposal of surface water flows into a soakaway, in principle, subject to consultation and agreement with the regulatory body or riparian owner of this system.

glas
Glas Cymru Cyfyngedig

Welsh Water is owned by Glas Cymru – a 'not-for-profit' company.
Mae Dŵr Cymru yn eiddo i Glas Cymru – cwmni 'nid-er-elw'.

Accordingly, if you are minded to grant planning consent for the above development, we would request that the following **Condition and Advisory Notes** are included within the consent to ensure no detriment to existing residents or the environment and to Dwr Cymru Welsh Water's assets:

Condition

No surface water and/or land drainage shall be allowed to connect directly or indirectly with the public sewerage network

Reason: To prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment.

Advisory Notes

The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication "Sewers for Adoption"- 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com.

The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.

The development will give rise to a new discharge (or alter an existing discharge) of trade effluent, directly or indirectly to the public sewerage system. A Discharge Consent under Section 118 of the Water Industry Act 1991 is required from Welsh Water. Please note that the process for applying for a Discharge Consent is independent of the planning process and an application for consent may be refused even though planning permission may have already been granted.

Our response is based on the information provided by your application. Should the proposal alter during the course of the application process we kindly request that we are re-consulted and reserve the right to make new representation.

If you have any queries please contact the undersigned on 0800 917 2652 or via email at **developer.services@dwrcymru.com**

Please quote our reference number in all communications and correspondence.

Yours faithfully,

Olivia Davis
