Proposal

The proposed is to fit a 2.4-meter-high metal green round top palisade fencing approx. 104 meters in length, fitted with three-meter width double gates providing a service access. The fence is to mitigate the danger from the cliff edge approx. 8 meters drop. The location of fence is to be fitted 5 meters away from the cliff edge creating a dead zone for maintenance. The land is owned by Wrexham County Borough Council.
