Our Ref: PLA0092419
Your Ref: P/2025/0948

Dear Sir/Madam

Grid Ref: SJ301454 330178 345484
Site: Moreton Inn Ruabon Road Ruabon
Development: VARIATION OF CONDITIONS 2, 3, 4, 6, 7, 8, 9, 11, 13, 14, 15, 18 AND 22 OF PLANNING PERMISSION P/2023/0095 TO AMEND APPROVED PLANS – SUBSITUTION OF HOUSE TYPES AND AMEND WORDING OF CONDITION

We refer to your planning consultation relating to the above site, and we can provide the following comments in respect to the proposed development.

We note that application seeks the removal and/or variation of conditions, however, it appears the application also seeks to discharge a suite of conditions. We have been consulted on the sought approval of condition no. 13 which seeks approval of a Foul Drainage Strategy. The full wording of condition 13 is extracted below:

> *No development shall take place until a scheme for the drainage of foul water has been submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be implemented prior to the first use/occupation of the development.*

We note that drawing ref. Proposed S104 Drainage Layout has been submitted for approval. Having reviewed the proposed details, we have no objection in principle to Foul water outfall into existing combined via manhole ref. SJ30451501.

As noted on the submitted plan, in addition to this discharge of condition, the proposal will be subject to a Section 104 Adoption Agreement being complete, a Section 106 application to connect must be made to DCWW the developer shall be given 21 days notice prior to connection. The works may only be undertaken by an SSIP Health & Safety approved contractor.

In this instance, the proposed connection is to a 375mm concrete public sewer. Given the scale and significance of the sewer, we request a manhole connection plan to review so that DCWW consider their proposal to determine whether DCWW will be required to undertake the work.
