Exerior Masonry

This understated tone is named after the unbleached wood used in the stalk of a match.

For brick, render and concrete, Exterior Masonry brings super matt, long-lasting colour to exterior walls. Its water-resistant formula protects walls, while also offering the highest level of water vapour permeability to allow them to breathe. Applied in line with our Product Advice Sheets, it resists flaking, peeling, and fading for up to 15 years.

Recommended Primer & Undercoat: White and Light Tones

Complementary white: White Tie

Key features

75 Years of Perfecting Paint

If you've ever wondered what it is that makes Farrow & Ball so special, you'll find the answers here.

From our high-quality ingredients to our artisanal methods, our 100% water based range of finishes and responsible practices, it's about so much more than just paint and paper.

Complementary White

White Tie

One of our Yellow Based Neutrals, White Tie brings a gentle warmth to any room and is deepened with a touch of black pigment.
Find out more about White Tie No.2002

We pair each of our colours with a complementary white, hand-picked from our palette based on undertones, so they work wonderfully together and create an effortless, considered feel.

Recommended Primer & Undercoat

Masonry & Plaster Stabilising Primer

For use on masonry, rendered or plastered surfaces which are porous, chalky or slightly worn. Our Masonry & Plaster Stabilising Primer will prep the surface for an even and longer lasting finish in our Exterior Masonry, Estate Emulsion or Modern Emulsion. Available in one colour (dries clear).

Made with the same natural ingredients and pigments as our topcoats, our Primer & Undercoat is the crucial foundation for creating a rich, even and longer lasting finish.

Masonry & Plaster Primer

Why Choose Farrow & Ball?

For exterior brick and render

For brick, render and concrete, Exterior Masonry brings super matt, long-lasting colour to exterior walls.

Weather-resistant and breathable

The water-resistant formula protects walls from the weather, while also offering the highest level of water vapour permeability to allow them to breathe.

Protected from fungi and algae

Our expert chemists have formulated Exterior Masonry with added protection against fungi and algae, so your outdoor spaces stay looking their best.

Lasts up to 15 years

When applied according to our Product Advice Sheets, the resin-rich formula resists flaking, peeling and fading for up to 15 years.

Very matt

Exterior Masonry is our super-matt, long-lasting finish for exterior walls with a 2% sheen.

00:28

Paint that can't be matched

Asking 'can you match Farrow & Ball colours?' misses everything else that goes into the tin to make our industry defining finishes. We pack our paint with quality minerals, coverage-enhancing pigments and resin (using a much higher proportion than many other brands), ensuring an exceptional base to add colour to.

Find Out More

100% water based
Our completely water based paint range doesn't discolour over time like solvent based paints can. So your spaces stay beautiful for longer.

Toy safe
Independently tested and certified toy-safe in accordance with Safety of Toys Part 3: Migration of certain elements (EN 71-3:2019+A1:2021).

00:17

Low VOC
All of our finishes, including our tough trim and floor paints, are made with a low-odour, low-VOC water base that scores A+ for indoor air quality.

Product information

Water Based and Toy Safe

Back in 2010, we moved to an entirely water based range of finishes, becoming the first in the industry to do so. These low-odour, low-VOC finishes are easy to clean without harmful solvents. They are also certified Toy-safe in accordance with Safety of Toys Part 3: Migration of certain elements (EN 71-3:2019+A1:2021).

Exclusions: Casein Distemper, Limewash, Wood Primer & Undercoat and Metal Primer & Undercoat.

Quality Finishes

Every one of our paint colours is available in a range of durable interior and exterior paint finishes, each rigorously tested to ensure an exceptional depth of colour and long-lasting finish. For the very best results, we always recommend using a Farrow & Ball Primer & Undercoat - see above for the correct tone for this colour.

Safety Information

Always read and follow the information on the product label.

All Farrow & Ball finishes except Limewash contain isothiazolinones, which may produce an allergic reaction. Farrow & Ball Limewash contains calcium hydroxide which can cause severe damage in contact with skin or eyes. For further information about our products, including guidance on safe use and application, click here to view our advice pages

Limewash: Danger. Causes skin irritation. Causes serious eye damage. May cause respiratory irritation.

Exterior Eggshell and Exterior Masonry: Harmful to aquatic life with long lasting effects. Contains isothiazolinones. May produce an allergic reaction.

All other finishes: Contains isothiazolinones. May produce an allergic reaction.

Remove as much product as possible from painting tools before cleaning.

Do not flush paint down the drain, including when cleaning painting tools.

Dispose of contents/container to comply with local regulations.

Avoid release to the environment.
