Example: Footprint of the extension has been considered to avoid removal or impacts to the rear hedgerow.
Locker is located on hard standing. There is no impact.

Describe what will be done to mitigate (minimise) any impacts

Example: Vegetation will be removed between September and February to avoid the bird nesting season.
Locker is located on hard standing. There is no impact.

Describe what will be done to compensate for (replace) any losses

Example: A new native hedgerow will be planted to compensate for the loss of lawn and shrubs. Any lawn that is damaged will be re-seeded with a species-rich grass seed.
Locker is located on hard standing. There is no impact.

What features are being implemented to enhance Green Infrastructure?

Example: New native tree
N/A. It is not possible to implement measures to enhance green infrastructure as this is a proposal is for a parcel locker.

How will the new planting/habitat creation works be implemented, managed and/or maintained? N.B. full details may need to be supplied as a separate landscaping scheme.

Example: Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaces in the next planting season with others of similar size and species.
