Description of Proposed Works

Please describe the proposed works

Retrospective permission for the alteration of the roof of an existing annex/outbuilding to form a dormer, including the installation of French doors, windows and a balcony.

Retrospective planning permission is also sought for the erection of a lean-to garage to the side of the outbuilding for domestic storage, replacing a former 20ft shipping container.

The dormer has been constructed to improve the usability of an existing bedroom/office space within the outbuilding. No additional rooms have been created and the footprint remains unchanged. The dormer will be slate-hung to match the existing roof finish.

The balcony and dorma is oriented towards open countryside and overlooks no immediate neighbours, resulting in no loss of privacy or amenity. While the public footpath is nearby, the development is not visually intrusive.

The lean-to garage replaces a former shipping container and provides improved domestic storage. Its design is more sympathetic to the site and represents a visual enhancement.

Retrospective planning permission is respectfully sought.

Has the work already been started without planning permission?

- [x] Yes
- [ ] No

If Yes, please state when the development or work was started (date must be pre-application submission)
