13th March 2026

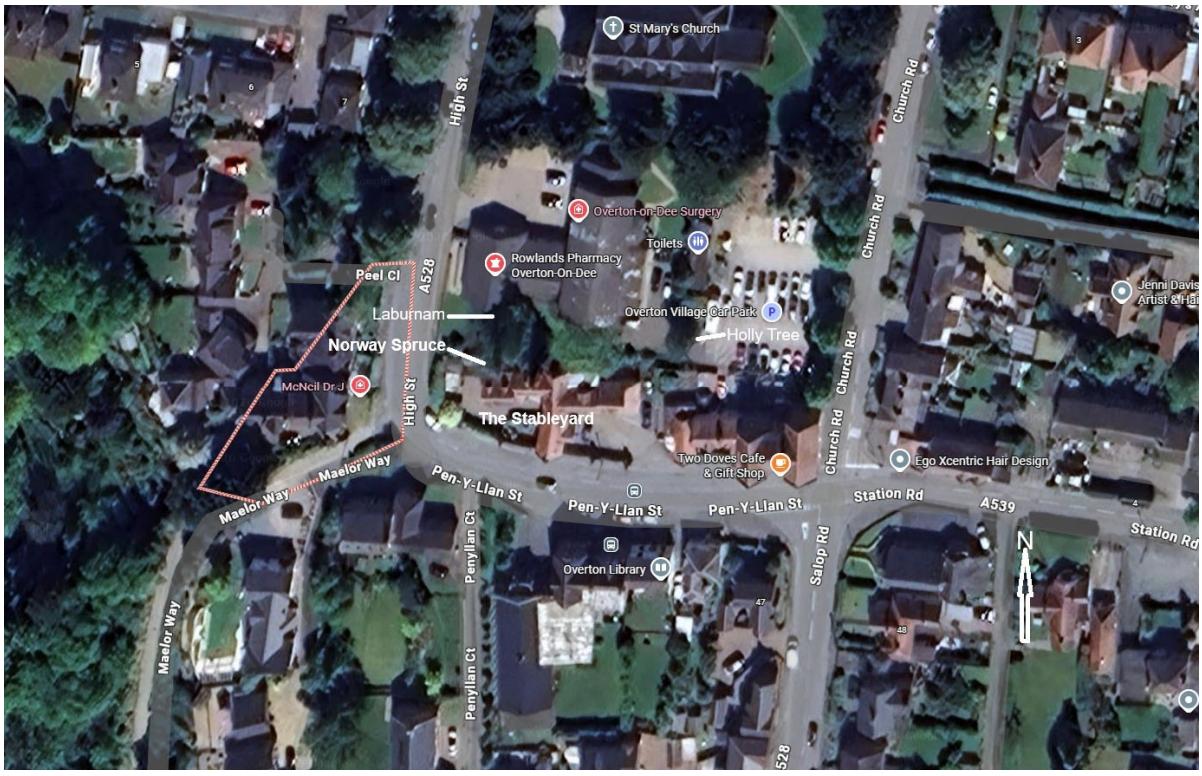

Dear Sharon Williams,

APPLICATION FOR TREE WORKS – AERIAL VIEW SHOWING LOCATION OF TREES

Your Reference: P/2026/0161

Thank you for responding quickly to our application to attend to trees that are impacting on neighbouring properties and pedestrian and vehicle access. Please accept my apology that insufficient information was included in our submission of 12th March 2026.

As requested, please see below location of the trees concerned:

Arborist Mr Rob Mays has proposed that the Holly tree be pruned to provide 2.5 m of clearance from the ground. The Laburnum will require pruning to provide at least 2m of clearance from the ground for pedestrian access along the footpath.

Trusting that this information meets your requirement and that our neighbour can be reassured that the Norway Spruce will have planning approval to be removed and replaced with a more suitable tree adjoining the boundary.

Kind regards

A C J Marriott MCMI
