Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste and have arrangements been made for the separate storage and collection of recyclable waste?

- ⊘ Yes
- ◯ No

If Yes, please provide details:

Waste Storage and Collection Strategy

Due to the constraints of the existing building and the absence of external curtilage suitable for refuse storage, the proposed development will utilise a designated external refuse storage area located to the rear of the building within an existing bin storage area associated with the ground floor unit.
Residual waste will be stored within standard 240 litre wheelie bins with recycling containers provided in accordance with Wrexham County Borough Council waste collection requirements.

Access to the external refuse storage area will be secured through a formal agreement between the relevant property owners and tenants ensuring that the bins associated with the proposed development can be stored within the rear bin area at all times.
Residents will transfer waste from internal kitchen bins to the external wheelie bins via the agreed access route. On the scheduled collection day the bins will be presented at the kerbside in accordance with Wrexham County Borough Council's waste collection arrangements.

The management of the bins and access to the refuse storage area will be controlled through property management arrangements and tenancy agreements ensuring that the waste storage and collection system operates effectively and hygienically.
