Dyddiad/Date: 20 April 2026

Annwyl Syr/Madam/Dear Sir/Madam,

BWRIAD/PROPOSAL: Amrywio amod 1 caniatâd cynllunio P/2020/0576 i ymestyn terfyn amser ar gyfer cychwyn datblygiad / Variation of condition 1 of planning permission P/2020/0576 to extend time limit for commencement of development.

LLEOLIAD/LOCATION: James Farm, Ruabon, Wrexham,LL14 6DW

Thank you for consulting Cyfoeth Naturiol Cymru (CNC)/Natural Resources Wales (NRW) about the above, which we received on 08 April 2026.

We have no objection to the proposed development as submitted and provide the following advice.

Protected Sites - Foul Drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). In line with our Advice to Planning Authorities for Planning Applications Affecting Nutrient Sensitive River Special Areas of Conservation, under the Habitats Regulations, Planning Authorities must consider the impact of proposed developments on water quality within SAC river catchments. We therefore advise you to consider whether the proposals, as submitted, would increase the volume of foul discharge from the site in planning terms.

We note this is an application to vary condition 1 of planning permission P/2020/0576. As such, even though the development proposed was judged to be acceptable in principle when the original permission was granted, that decision predates the publication of our river SAC Advice. We therefore advise that you will need to consider the implications of this as part of your determination of this application. For further information, please refer to our Advice.

We also advise that your Authority considers the Supreme Court's recent judgment in C G Fry & Son Limited v Secretary of State for Housing, Communities and Local Government [2025] UKSC 35. The implication of the Fry judgement is that where there is an application

relating to an implementing decision under a planning permission, a Habitat Regulations Assessment (HRA) may need to be carried out in respect of the project. We suggest you seek your own expert advice on this matter, to properly inform your determination of the application as submitted.

Ultimately, it is for your Authority to consider to what extent the above is a material consideration in the context of the current application. If you determine that NRW's Advice is a material consideration to this application, then you will need to consider the Habitats Regulations and screen the proposal accordingly.

Protected species

We note the original application was supported Ecology Assessment carried out by Yorke Associates and dated August 2020.We recommend you seek the advice of your Authority's ecologist about the requirement for an updated survey to be provided in support of this application.

Other Matters

The advice in this letter relates to matters which are included on our consultation topics list. We do not rule out the potential for the proposed development to affect other environmental interests that are not included on this list.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our website for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully,

Sara Thomas
Uwch Gynghorydd - Cynllunio Datblygu/Senior Advisor - Development Planning
