1.0 LANDSCAPE CHARACTERS AREAS

1.1 ZONE 1 SPINE ROAD
KEY PLANTING ZONES

Zone 1 - SPINE ROAD
The area surrounding the spine road has a well-defined, formal landscape design. Along the road trees and shrubs are planted with a variety of yellow and red flowers and leaves that create a seasonal color scheme.

TREES
Acer rubrum ‘October Glory’,Prunus futicosa ‘Globosa’,Photinia x fraserii ‘Red Robin’(Tree)

HEDGE
Prunus lusitanica

SHRUBS
Brachyglottis sunshine
Hypericum ‘Hidcote’
Choisya ternata ‘Sundance’

1.2 ZONE 2 PARK FRONTAGE
KEY PLANTING ZONES

Zone 2- PARK FRONTAGE
The frontage areas of the park have a natural landscape design, blending with the nearby POS areas. Shrubs planted along these frontage areas produce purple and pink flowers, complemented by multi-stem trees, creating a mix of plant species. The evergreen frontage hedges act as a buffer between the private housing plots and the public open space.

TREES
Cornus kousa ‘China Girl’, Amelanchier lamarckii, Magnolia x loebneri ‘Leonard Messel’

HEDGES
Photinia x fraserii ‘Red Robin’, Prunus laurocerasus ‘Rotundifolia’

SHRUBS
Skimmia japonica ‘Rubella‘, Hebe ‘White Gem’
Spiraea japonica ‘Goldflame’

1.3 ZONE 3 THE COURTYARD
KEY PLANTING ZONES

Zone 3- THE COURTYARD
A semi-formal landscape design for the courtyard areas features hedges and structural single-stem trees. Ornamental shrubs add a softer touch to these areas, transitioning into light green leaves and pink, red, and white colours throughout the changing seasons.

TREES
Prunus serrulata ‘Sunset Boulevard’
Prunus ‘Spire’

HEDGES
Prunus laurocerasus ‘Rotundifolia’

SHRUBS
Skimmia confusa ‘Kew Green’, Nandina domestica, Viburnum davidii, Carex morrowii ‘Silver Sceptre’

1.4 ZONE 4 THE LANES
KEY PLANTING ZONES

Zone 4 - THE LANE
The key aspects of the planting design in the lane areas are to soften the appearance of the built development with a semi-formal landscape. Structural trees are used in these compact spaces. Multi-stem trees are used in wider spaces to create a less formal feel. The shrubs produce red and white flowers, adding seasonal interest.

TREES
Prunus 'Amanogawa', Magnolia x loebneri 'Leonard Messel'

HEDGE
Photinia x fraserii 'Red Robin'

SHRUBS
Pieris japonica 'Little Heath'
Sarcococca humilis
Hydrangea panicula 'Limelight' (specimen)

1.5 ZONE 5 PUBLIC OPEN SPACE (NORTHERN)
KEY PLANTING ZONES

Zone 5 PUBLIC OPEN SPACE (NORTHERN)
The landscape design in the northern public open space (POS) serves as a green buffer for the site. The seating area in the northern POS provides a gathering area for residents. The northern POS features a semi-formal landscape design. Semi-mature trees and evergreen native single-specie hedges running along the site boundary highlight both development entrances. A mix of evergreen shrubs and perennials, as well as a variety of single and multi-stem trees, are planted to enhance species diversity.

TREES
Liquidambar styraciflua 'Worplesdon', Pyrus calleryana 'Chanticleer', Ginkgo biloba 'Fastigiata Blagon'

Native Single-specie Hedge
Ilex aquifolium-Hedge

SHRUBS AND PERENNIALS
Viburnum tinus, Hydrangea macrophylla 'Blue Wave'
Alchemilla mollis, Stachys byzantina

1.6 ZONE 6 PUBLIC OPEN SPACE (SOUTHERN)
KEY PLANTING ZONES

Zone 6 PUBLIC OPEN SPACE (SOUTHERN)
The public open space (POS) in the southern part of the development has a space for residents' seating and a play area for children.

A natural landscape design in the southern POS softens the edge of the development. Evergreen shrubs and perennials planted in the POS areas produce a variety of colours, complemented by multi-stem trees and a wildflower mix, creating a diverse array of plant species. A mix of native hedge and tree species provides a buffer for the development and increases biodiversity.

TREES
Acer platanoides 'Cleveland', Amelanchier lamarckii
Quercus robur, Fagus sylvatica

SHRUBS AND PERENNIALS
Pittosporum tenuifolium 'Tom Thumb', Choisya ternata
Hemerocallis lilioasphodelus, Geranium 'Johnson's Blue'
