[redacted]

Hi Sharon

Please see below and attached from our client. We have chased the revised highway visibility and swept path analysis so we can hopefully submit by close of business tomorrow.

Kind regards

John

[redacted]

Hi John

As we are no longer in the Barn ourselves as 2 occupants.

We envision that we will let the Barn out if approved for a single occupant only due to the size of the dwelling, which will in effect further reduce the phosphorus load from originally calculated.

Please see the amended nutrient calculator with reduced phosphorus out to 0.05kg TP per year.

Please can this be forwarded to Sharon priot ot Friday.

Many Thanks
Kayne Barber
