Drawing no.: 1041EN3		SCo ---	
Create date 2024-10-25	Rev. date -	Format A3	Scale 1:5

Note: When installing VELUX Roof Windows, flashings and installation products, the manufacturers instructions and current building and fire regulations, where applicable, must be met.

CONDITION 6:

Proposed rooflights to comprise VELUX Conservation Rooflights or approved equivalent, finished in black externally and installed in accordance with the manufacturer's recommendations and approved technical details.

Rooflights shall be recessed within the roof slope and fitted flush with the surrounding natural slate covering to minimise their visual impact and preserve the character and appearance of the listed building.

Glazing to comprise double glazed sealed units achieving current Building Regulations requirements. All glazing within critical locations shall comprise safety glazing in accordance with Approved Document K and relevant British Standards.

Installation shall include proprietary flashing kits, insulation collars, underfelt collars and vapour control components as recommended by the manufacturer to ensure appropriate weatherproofing and thermal performance.

Sections shown are based upon the manufacturer's published technical details and are indicative of the proposed installation. Final proprietary components shall be installed in accordance with the manufacturer's specification and shall match the approved appearance shown on these drawings.
