Subject: Re: Planning Application - P/2026/0340

Hi Sharon,

Thanks for recent conversation in relation to this site.

As discussed the site is attached to buildings on all sides other than the front and the location plan identifies this.

Any waste generated by the proposed nail/hair/lash treatments will be stored internally and put out for collection on the appropriate day as per the attached google earth images.

There is no parking provision on site and staff and visitors will need to use public transport or city centre parking provisions.

There are no trees on site or within the vicinity of the site and no existing boundary treatments.

As such it would be appreciated if the submitted plans can be used to validate the application.

Regards

Peter Miller
