Sharon

Response to LHA comments as follows:

The applicant has confirmed that the shower and changing facilities are accessible to all.

The TP is a 'live' document, subject to updates as the scale of operations progress at the site. Increase in weekly throughput above 1million birds will progress, subject to discharge of relevant conditions, of which the currently proposed TP updates is one.

Annual staff travel surveys are currently undertaken as a matter of course and an updated TP will be issued annually upon request.

Many thanks
