Dyddiad/Date: 21 August 2026

Annwyl Syr/Madam/Dear Sir/Madam,

Bwriad/Proposal: Change of use of building from class a1 (retail) to class sui generis (retro gaming lounge)

Lleoliad/Location: 28 Eagles Meadow, Wrexham

Thank you for consulting Cyfoeth Naturiol Cymru/Natural Resources Wales (NRW) about the above, which we received on 04 August 2026.

We have **concerns** with the application as submitted. To overcome these concerns, further consideration is required regarding **foul drainage**. Further details are provided below.

Protected Sites and Foul Drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). In line with our Advice to Planning Authorities for Planning Applications Affecting Nutrient Sensitive River Special Areas of Conservation, under the Habitats Regulations, Planning Authorities must consider the impact of proposed developments on water quality within SAC river catchments.

This application for the change of use of shop to retro gaming lounge proposes connection of foul water to the mains sewer. The proposed development could potentially lead to an increase of phosphorus load from the receiving wastewater treatment works into the River Dee and Bala Lake SAC. The majority of the River Dee and Bala Lake catchment is currently failing to meet water quality targets for phosphorus. The nutrient impacts of new connections need to be considered on a case-by-case basis within the Habitats Regulations Assessment process.

Ultimately, the suitability of foul drainage arrangements for the proposed development is a matter for your Authority to determine. We advise your Authority that further consideration

is required and to follow our Advice specifically the section titled “What does this mean for development proposals involving connection to public wastewater treatment works?”

We therefore advise you to take the above into account in your determination of whether the development is likely to have a significant effect on the SAC. Should you conclude that an Appropriate Assessment is required, the Applicant will need to provide whatever evidence they consider appropriate (seeking advice from consultants as necessary) to demonstrate no adverse effect on site integrity.

Please consult us on any Appropriate Assessment under Regulation 63 of the Conservation of Habitats and Species Regulations 2017 (as amended). However, until the development can demonstrate it will not lead to an increase of phosphorus load from the receiving wastewater treatment works into the river we would be unable to advise you that the proposed development would not result in an adverse effect on the integrity of the site.

Flood Risk

The planning application proposes less vulnerable development. The Flood Map for Planning identifies the application site to be at risk of flooding and within Flood Zone 2 Rivers.

Given the scale and nature of the proposed development (and in the absence of a flood consequences assessment) we consider the proposals could be acceptable, subject to the developer being made aware of the potential flood risks and consequences. We would also expect the developer to take the opportunity to incorporate flood resilient design where feasible.

Guidance on resilient design can be found in Chapter 13 of Technical Advice Note 15: Development, flooding and coastal erosion, dated 2025, which references advice from Construction Industry Research and Information Association, including a Code of Practice and Guidance for Property Flood Resilience.

We provide advice on our website Natural Resources Wales / Preparing for a flood which may be useful for the developer or occupant of the proposal.

Other matters

The advice in this letter relates to matters which are included on our consultation topics list. We do not rule out the potential for the proposed development to affect other environmental interests that are not included on this list.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our website for further details.

If you have any queries about the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully,

Sara Thomas

Cynghorydd - Cynllunio Datblygu/Advisor - Development Planning
