Applicant Mrs H L Hough

Reference P/2024/1329

Decision Date 25/08/2026

1. Planning Policy Wales (PPW12) requires development to provide a net benefit for biodiversity (NBB) i.e. a better outcome than if the site was left undeveloped. All development regardless of size must not only mitigate any negative impacts of the development but also have a positive benefit for biodiversity which will be in place for the lifetime of the development. Enhancements should be onsite, proportional to the size of development, tailored towards features valuable in the area or providing linking habitats GIS and plan. It has not been demonstrated that suitable NBB could be provided that would meet the requirements of PPW12 and the proposal is therefore considered to be unacceptable and to be contrary to National Policy and Policy EC6 of the Wrexham Unitary Development Plan.

2. Insufficient information has been provided with the application to allow the LPA to conclude that the proposal accords fully with Policy GDP1 of the UDP. The principle of development is therefore considered to be unacceptable and to be contrary to Policy E5(a) of the Wrexham Unitary Development Plan.

3. Insufficient information has been provided in respect of parking, access and vehicular movements to allow to the LPA to adequately assess the impact of the proposal on highway safety. The proposal is therefore considered to be contrary to Policy GDP1(d).
